

Patellofemoral Joint (PFJ) Arthroplasty Coding Reference Guide

Physician	
CPT® Code	Description
Arthroplasty	
27599	Unlisted procedure, femur or knee
Removal	
27488	Removal of prosthesis, including total knee prosthesis, methylmethacrylate with or without insertion of spacer, knee

In a question under the heading, "Surgery: Musculoskeletal System," in the Frequently Asked Questions (FAQs) section on page 8 of the June 2016 issue of *CPT® Assistant*, the answer incorrectly stated that it is appropriate to report code 27442 for patellofemoral arthroplasty and unlisted code 27599 may be reported for trochlear resurfacing. Upon further analysis by relevant specialty societies, it was determined this recommendation was incorrect; instead, it would be appropriate to report unlisted code 27599, *Unlisted procedure, femur or knee*, for all of the work described in the entire procedure. Therefore, the advice in this coding correction supersedes prior advice given in the June 2016 FAQ. *CPT® Assistant February 2021 / Volume 31 Issue 2.*

Hospital Inpatient: ICD-10-PCS Code and Description			
Replacement <i>(Putting in or on biological or synthetic material that physically takes the place and/or function of all or a portion of a body part)</i>			
Ø Medical and Surgical S Lower Joints R Replacement			
Body Part	Approach	Device	Qualifier
