

iASSIST™ Knee System Coding Reference Guide

The iASSIST™ Knee System is an advanced surgical guidance system engineered to improve the accuracy and alignment of total knee replacement surgery. The system helps to assist the surgeon in precisely aligning knee implants to each patient’s unique anatomy, providing a personalized fit and a truly tailored total knee replacement.

Physician	
CPT® Code	Description
0396T	Intra-operative use of kinetic balance sensor for implant stability during knee replacement arthroplasty (list separately in addition to code for primary procedure)

Hospital Inpatient: ICD-10-PCS Procedure Code and Description			
X New Technology R Joints 2 Monitoring			
Body Part	Approach	Device	Qualifier
