

SpeedSnare™ Suture Passer System

First single step system with right and left bends.

Not too big, not too small

- Effective combination of sturdiness and size
- 1.8 mm shaft to resist breakage
- Minimally invasive compared to standard 3.0 mm bird beak instrumentation

Some like it locked, some don't

- The first system designed with “suture locked” and “suture sliding” positions
- Pass and retrieve in one step (accepts suture and suture tape)
- Audible and tactile feedback for confidence in snare positions
