

IntelliCart™ System

The Foundation for Advancing Infectious Waste Technology

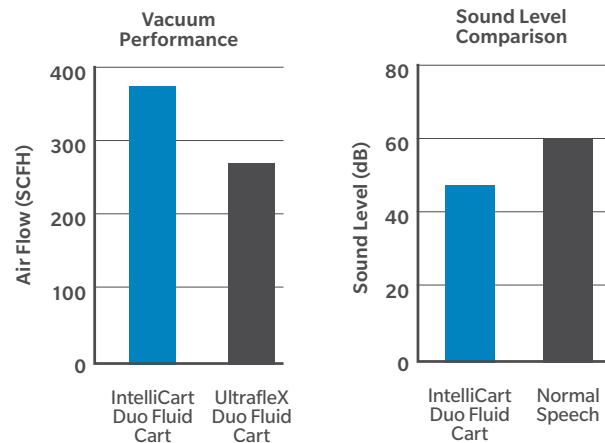

Innovative. Intuitive. Intelligent. IntelliCart

Zimmer Biomet is committed to providing advanced, easy-to-use surgical equipment solutions for your most challenging OR needs. The IntelliCart System delivers on this commitment with significant advancements in day-to-day OR fluid and smoke waste management technology.

Innovative

- Redesigned vacuum pump with greater usable vacuum flow at a sound level of only 47.5dB (3.87 sones)
- Dual 17-liter lighted reservoirs with ConSeal™ Tint Technology selectively hide surgical fluids
- Clog-free manifold with integrated high-flow filter protects against vacuum system moisture ingress

Intuitive

- Simple and interactive, high-definition touch screen display
- Flexible docking system simplifies Cart processing in any dirty utility room
- PlumeVac™ Smoke Evacuator available on or off the cart

Intelligent

- Reservoir doors close when manifolds are removed
- Reusable reservoirs and recyclable manifolds reduce OR red bag waste by up to 70%
- Robust cleaning process uses FDA cleared low level disinfection cycle when processing reservoir interiors
- Backward compatible with UltrafleX Fluid Cart Manifolds and Ultra Evac Station

Duo Fluid Cart

With market leading 34-liter fluid capacity, extra quiet vacuum pump, clog-free suction manifolds and portable smoke evacuation, the IntelliCart System makes managing surgical fluid and smoke waste hazards simple and convenient.

- 1 Control Panel Display**
Touch operation with 310° rotation
- 2 IV Pole**
Manual pole standard, power IV pole shown
- 3 Manifolds**
Clog-free and recyclable
- 4 Reservoir Windows**
Equipped with proprietary ConSeal Tint Technology
- 5 Redesigned Vacuum Pump**
Extra quiet with HEPA air filtration, increased flow capabilities and odor control
- 6 Brake Wheels**
Stabilize cart

Reservoir windows with lights on/tint off

Evac Station Connected to Duo Fluid Cart

The IntelliCart System takes infection control seriously. That is why the Evac Station uses a robust FDA cleared low level disinfection cycle when it cleans and processes the Duo Fluid Cart reservoir interiors. The simple to install station is placed in a surgical decontamination room or utility closet.

- 1 Control Panel Display**
Customizable Evac operation
- 2 External Equipment Surfaces**
Withstands a wide variety of disinfectant wipes
- 3 Manifold Storage**
Easy access to new manifolds
- 4 Evac Coupler**
Secure and orientation-independent docking
- 5 PlumeVac Smoke Evacuator**
Optional and portable
- 6 Evac Cleaning Solutions**
FDA cleared low level disinfection cycle uses hot water, Ultra Enzyme cleaner and sodium hypochlorite to disinfect reservoir interiors

Evac Station 00514010900

PlumeVac™ Smoke Evacuator

The portable PlumeVac Smoke Evacuator gives you the flexibility to put smoke plume evacuation where you need it – on or off the cart.

PlumeVac Smoke Evacuator AEVV120

- 1 Motor Speed Control**
Three motor speeds
- 2 Filter Life Indicator**
Provides a visual indication of filter life (max filter life 35 hours)
- 3 PlumeGuard™ Smoke Filter**
Four stage ULPA filter captures surgical smoke and accommodates 1/4" (6 mm), 3/8" (9.5 mm) and 7/8" (22 mm) tubing diameters
- 4 Automatic Activation Device**
Automatically activates smoke evacuator while ESU is in use
