

Webinar: Zimmer Biomet Presents: Remote Therapeutic Monitoring (RTM) Reimbursement Overview

Patient data collected through Persona IQ® The Smart Knee® and/or mymobility® may be utilized to help meet the criteria for billing monthly Remote Therapeutic Monitoring services for their patients.

This course will provide an overview of the reimbursement fundamentals and coding requirements of Remote Therapeutic Monitoring (RTM), as it is a new service offering in orthopedics. The faculty* will discuss all reimbursement requirements of implementing RTM in an orthopedic practice and will address frequently asked questions.

Date: December 7, 2022

Time: 7:15 PM - 8:15 PM CT

Registration:

<https://www5.aaos.org/calendar/event/?productId=19813960&ssopc=1>

Learning Objectives:

1. Program will review all Remote Therapeutic Monitoring (RTM) reimbursement fundamentals including coding, coverage and payment
2. Review all RTM reimbursement requirements, including medical devices, software and data requirements meeting payer coverage criteria
3. Understand all RTM frequently asked questions on key topics to understand as you plan to implement this service in your orthopedic practice
